

## EEl TRAINING SESSION

# Free EEl Teacher Training

*Hosted by Chabot Space and Science Center*

Come learn about the Education and the Environment Initiative (EEl), a free K-12 curriculum that teaches critical-skills in science and history-social science using environmental topics, such as water and energy, as a lens.

Enjoy hands-on activities from EEl and multiple resources.

### In this training, we will highlight:

- The EEl Curriculum history and the state's vision for environmental literacy.
- How EEl Curriculum helps students build critical 21st century skills such as problem solving, communication and collaboration.
- Common Core and Next Generation Science Standards support.
- How you can order your very own free EEl Curriculum units.

**Date:** Saturday, February 10, 2018

**Time:** 9:00-11:30 a.m.

**Cost:** Free!

**Where:** Chabot Space & Science Center

**Address:** 10000 Skyline Blvd. Oakland, CA 94619

**Registration:** Please register by February 2, 2018. Space is limited to 40 participants.

To register please send an email to Karen Fong at [kfong@chabotspace.org](mailto:kfong@chabotspace.org) with "EEl" in the subject line. Please include your name, grade and school district in the body of the email.
