

## Extinction: Past and Present

### *A Collaboration Between the La Brea Tar Pits and the Education and the Environment Initiative (EEI)*

Join the Tar Pits School Programs Team and EEI Environmental Education Specialists for a free educator workshop focused on change and extinction in California. We will examine the La Brea Tar Pits as a unique case study for biotic and abiotic change, and you'll leave with a suite of resources to bring everything you've learned back to your classroom!

All attendees will receive a free classroom set of the EEI Curriculum, plus hands-on training with an EEI Education Specialist and Tar Pits School Programs staff.

#### *The EEI Curriculum:*

- Consists of 85 units that teach science and history/social science
- Teaches select history-social science standards to mastery
- Supports Common Core and Next Generation Science Standards

#### **When**

Saturday, April 21, 2018  
9 am - 1 pm

#### **Where**

La Brea Tar Pits Museum  
5801 Wilshire Boulevard  
Los Angeles, CA 90036

#### **Who**

All Pre-K–12th grade educators are welcome to sign up, but the examples used at the workshop will be focused on middle school.

#### **Cost**

Free!
