

EEl TRAINING SESSION

Professional Development

Hosted by Montclair Elementary - easy parking and there will be snacks!

Come learn about the Education and the Environment Initiative (EEI), a K-12 curriculum that teaches critical-skills in science and history-social science using environmental topics, such as water and energy, as a lens.

In this training, we will highlight:

- How EEI can support Common Core and Next Generation Science Standards.
- How EEI Curriculum helps students build critical 21st century skills such as problem solving, communication and collaboration.
- The varied features and components of an EEI unit: sample lessons, connections to California issues, and assessments.
- EEI's background and the state's vision for environmental literacy.
- How you can order free hard copies of EEI Curriculum materials.

Date: February 6, 2018

Time: 3:30 p.m.- 5:30 p.m.

Cost of Training: Free!

Where: Montclair Elementary

Address: 1757 Mountain Boulevard
Oakland, California 94611-2259

Registration: [Register now](#). Space is limited
